Average Energy Prices, Seattle-Tacoma-Bremerton – September 2017

Gasoline prices averaged \$2.953 a gallon in the Seattle-Tacoma-Bremerton area in September 2017, the U.S. Bureau of Labor Statistics reported today. Assistant Commissioner for Regional Operations Richard Holden noted that area gasoline prices were up 35.6 cents compared to last September when they averaged \$2.597 per gallon. Seattle area households paid an average of 11.2 cents per kilowatt hour (kWh) of electricity in September 2017, higher than the 10.8 cents per kWh paid in September 2016. The average cost of utility (piped) gas at \$1.150 per therm in September was similar to the \$1.119 per therm spent last year. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

At \$2.953 a gallon, Seattle area consumers paid 9.9 percent more than the \$2.688 national average in September 2017. A year earlier, consumers in the Seattle area paid 14.5 percent more than the national average for a gallon of gasoline. The local price of a gallon of gasoline has been within 14.5 percent of the national average in the month of September during the past five years. (See [chart 1.](#))

Chart 1. Average prices for gasoline, Seattle-Tacoma-Bremerton and the United States, 2013-2017 (as of September)

SOURCE: U.S. Bureau of Labor Statistics.

The 11.2 cents per kWh Seattle households paid for electricity in September 2017 was 21.1 percent less than the nationwide average of 14.2 cents per kWh. Last September, electricity costs were 22.3 percent lower in Seattle compared to the nation. In each of the past five years during the month of September, prices paid by Seattle area consumers for electricity were less than the U.S. average by at least 21.1 percent. (See [chart 2.](#))

Prices paid by Seattle area consumers for utility (piped) gas, commonly referred to as natural gas, were \$1.150 per therm, or 13.0 percent more compared to the national average in September 2017 (\$1.018 per therm). A year earlier, area consumers paid 17.3 percent more per therm for natural gas compared to the nation. In the past five years, the per therm cost for natural gas in September in the Seattle area has varied between 12.2 percent and 35.7 percent above the U.S. average. (See [chart 3.](#))

The Seattle-Tacoma-Bremerton, Wash. metropolitan area consists of Kitsap, Thurston, Island, King, Snohomish, and Pierce Counties of Washington.

Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, the 3 population size classes, 10 region/size-class cross-classifications, and the 14 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm, are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: 202-691-5200; Federal Relay Service: 800-877-8339.

Table 1. Average prices for gasoline, electricity, and utility (piped) gas, Seattle-Tacoma-Bremerton and the United States, September 2016-September 2017, not seasonally adjusted

Year and month	Gasoline per gallon		Electricity per kWh		Utility (piped) gas per therm
